AASHRAY
ELEGANCE

2 & 3 BHK APARTMENTS & SHOPS

If anything, modernism is marked by simplicity. Clean lines, geometric shapes, wide open floor plans, and thoughtful, intentional inclusion of greens that say a lot with a little. When architecture is so simple that it offers perennial joy, you know that you have created a classic.

We designed Aashray Elegance to do just that. Aesthetically calming while also being functionally efficient, it was devised to ensure the best of both worlds. The building enhances the dialogue between the building and its environment, even while standing out with sophistication. We wanted a heightened sense of community within this gated project which led to the seamless flow of spaces into each other.

It's all about going down to the basics, the context, the essentials, and then those few things that spark joy.
